To whom it may concern,

My name and residence should be of no consequence, and I would appreciate them not being mentioned on record, however it will be signed at the end of this letter. My opposition to this new business venture does not come lightly nor out of revenge. I believe that more business to this area is only going to continue to cause problems and hazards for the first business that was here, The Drydock Club, as well as for our elderly neighbors that reside at the corners of 3rd St. & S. Harrison St and finally for our youth who live at 15 3rd St (and any future youth that may come along) The busy traffic that comes from The Drydock Club is far more than enough, but since Tie Tree Service also uses our little 3rd St. as their personal access road to their "parking area" it has caused damage to the road, and near misses to individuals' safeties. They (Tie Tree Service) have been known to barrel around the corner (with large industrial vehicles) nearly missing individual which obviously would have caused serious harm or even death, and when spoken to about their driving it was met with hostility. I bring this up not out of vendetta but out of concern for the safety of pedestrians especially elder and young. What will it be like in the near future with more and more people coming into our dead-end road looking to purchase industrial vehicles, and possibly driving them out? We also have a sign at the beginning of the road that reads "Dead End" which no one recognizes anyway, because we get people at all times of day and night whipping down here looking for an address that isn't on this end then whipping out again, what we really need is a sign that mentions "children" and/or "hearing impaired". What we don't need is more traffic and more large vehicles. Finally, with all that the city has done and given to Tie Tree Service; the lands, the ally, the buildings, and the business this is just one more thing they don't need. If the city gives into yet another thing like this where will this new thing lead to next!? All of 3rd St, our properties, our homes, what? Also, as a side note, I have been harassed by the owner of Tie Tree Service for part of my property, even all my property, since the day I moved into this house, I fear that if he is granted more leeway from the city then he will continue, or even increasingly, harass me for my property.

considerations,

Thank you for your time and
